

PAS

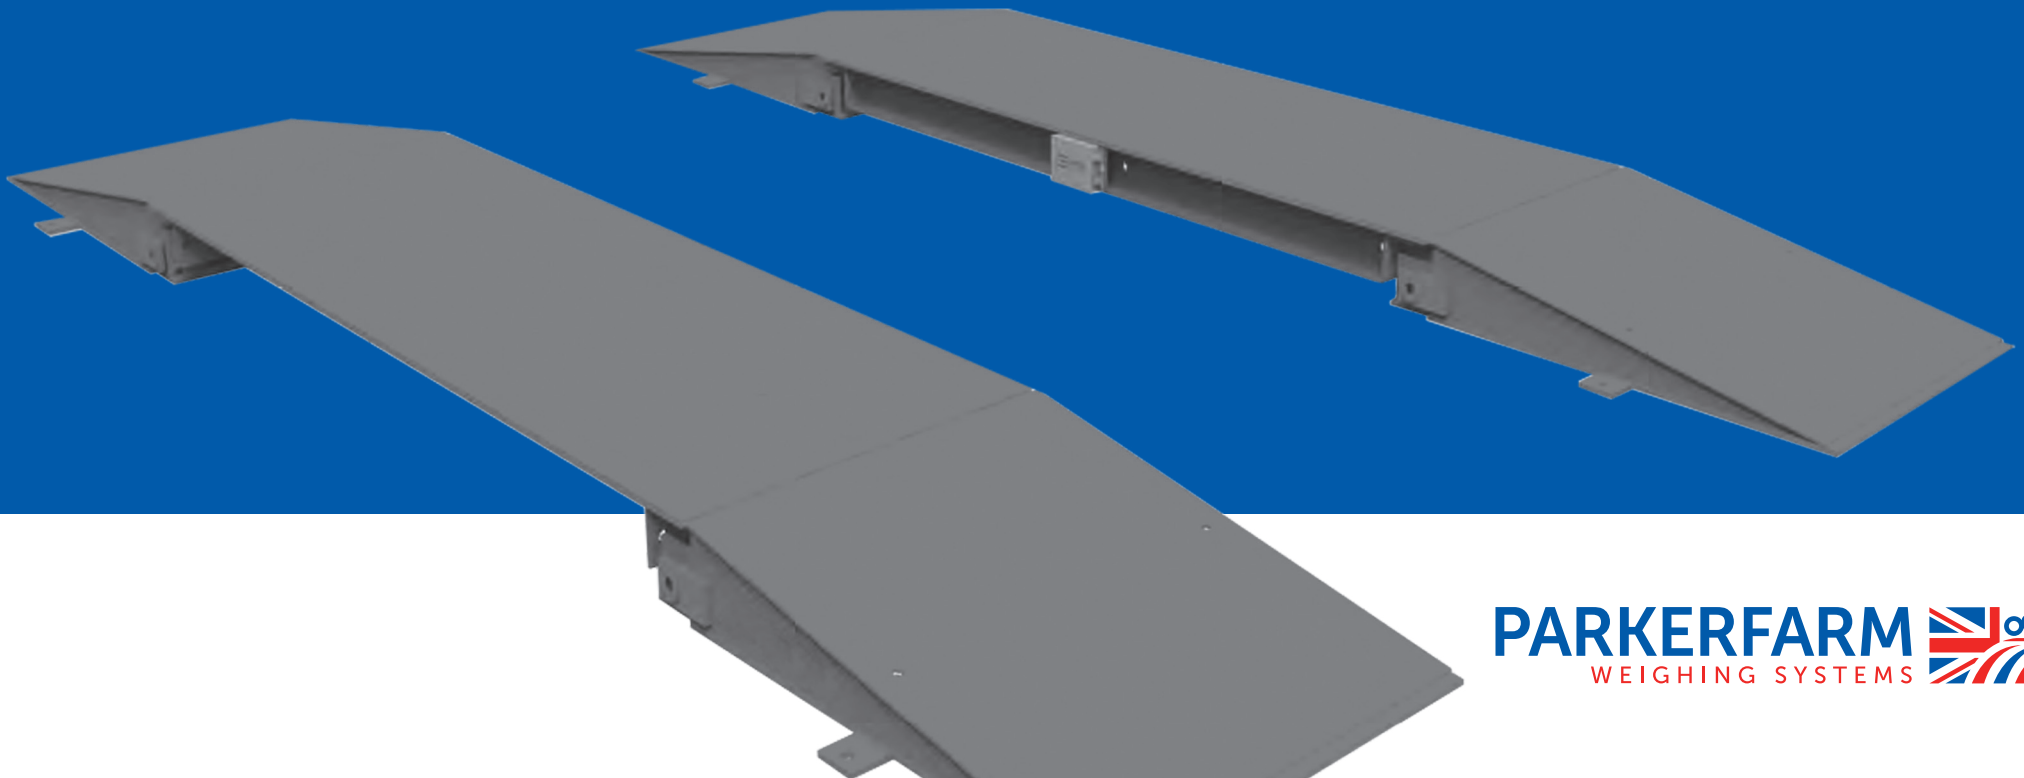

THE PORTABLE AXLE SCALE

Offering a versatile and heavy-duty design, Parkerfarm's Portable Axle Scale features 2 heavy duty load cells per platform with no moving suspension parts. Heavy duty platforms are constructed with I-beams and 12mm tread plate decking making the design the most rugged and robust in its class. It offers an economical alternative to a full-size vehicle weighbridge.

THE PORTABLE AXLE SCALE IS IDEAL FOR:

- Accurately checking individual axle weights.
- Minimizing the risk of overweight fines due to individual axles that exceed maximum limits.
- Ensuring trucks are not under loaded to maximize the productivity of each movement.

EASY INSTALLATION

No special foundation construction required for installation.
Can be installed directly onto concrete or asphalt.

EASILY PORTABLE

Platform is fully portable and can easily be moved with a fork lift or telehandler.

SIMPLE TO OPERATE

Scale height of only 150mm - very low profile for ease during drive-on.
Ramps have fully-plated bottom support and lag-down tabs.

AN ECONOMICAL ALTERNATIVE

The Portable Axle Scale is an economical alternative to a full size weighbridge, giving the portable flexibility to be used when required and stored away when not in use.

WARRANTY

1 YEAR

Load cell warranty covering defects in materials and Workmanship.

1 YEAR

Weighbridge warranty covering defects in materials and workmanship.

FEATURES AND SPECIFICATIONS

Type	Above ground portable axle scale
Scale Capacity	Overall Capacity 30,000kg 15000kg each beam
Scale size	- 3m x 750mm - 4.4m x 750mm
Scale Height	150mm
Ramp Dimensions	762mm wide x 915mm length
Finishing	• Paint System: Two-component Polyamide Epoxy paint • Steel Preparation: Commercial blast cleaning SSPC-SP6
Load Cell	• (2) 12500kg double ended shear beam per platform • Plated alloy steel, environmentally sealed (IP66)
Junction Box	IP68 stainless steel junction box
Construction	
Deck	Heavy duty "I" Beam design with 12mm durbar Non Slip tread plate
Ramps	Heavy duty design with seven internal supports, 12mm durbar non slip tread plate and 10mm lower mounting plate
